- She's always on her phone, often with random people
- She's lost interest in sex completely
- She makes relationship-affecting decisions without consulting you

## What to understand about a woman's mind games

- Mind games are a woman's way of trying to take control in a relationship
- When you can't detect or deal with her mind games, you give up control, and you let her become the dominant personality in your relationship - and that's not good for either of you
- To correctly deal with a woman's mind games, you must fight fire with fire - you need to manipulate her back
- When you think your woman is playing you, the worst thing you can do is to keep quiet about it.
- Don't be afraid to confront her and demand to know exactly what's going on.

---

## Signs she's lying to you while you're "interrogating" her

- Her eyes dart around
  - She can't make eye contact with you
  - She touches her face while speaking to you
  - She crosses her arms or otherwise looks nervous or defensive
  - She sounds nervous - stumbling and stuttering

## How to prevent or neutralize a woman's mind games

- The key is to confuse the shit out of her. Confusion is a mild form of hypnotic trance. It snaps her out of her "playing mind games" default mode, pay full attention to you, and be more compliant to you
  - You can confuse her by making statements using words that sound similar, but have different meanings (e.g. "Leave" and "Leaf")
  - Another way to confuse her is by using words that are opposite to each other (e.g. "left" and "right," or "up" and "down," or "happy" and "sad")
  - You can also confuse her by talking about one subject after another
  - Use the "Yes Set" technique, where you ask her a number of questions she'll obviously answer "yes" to, and then ask her if she's cheating on you (or whatever you suspect she's doing behind your back)

## "You Owe Me"

**Remember Todd, the high school jock in the beginning of our guide, and Kate, his girlfriend who was secretly sleeping around with his teammates on the football team?**

Like Fredo and Kenneth, Todd also went to me for help. And he came away with my powerful "You Owe Me" technique, for him to use when the next woman in his life tried to play games with him.

And guess what? A few years later, Todd bumped into Kate in a restaurant in his town. She was gorgeous as ever, and Todd decided to settle the score then and there.

At first, Kate was defensive and hesitant to share a table with Todd. So he spent a few minutes confusing her, telling her about what he's been up to since their high school days. He jumped from one story to another, and Kate got more and more confused.

Finally, she shook her head and said: "Todd, what are you talking about?"

That's when Todd used the technique on her. He looked her in the eye and said...

## "You Owe Me"

*“Remember when we were still together in high school? Remember how you told me to be perfectly honest with you, and I’ve been nothing BUT honest? And remember when I learned you’ve been seeing other guys behind my back? You never admitted it then. Well, now, I think I deserve that closure. After all, YOU OWE ME, Kate.”*

That did the trick. Kate broke down and cried, apologized profusely, and begged to make it up to him.

And guess what - over the next few months, Todd and Kate became friends again... and even started *dating* again. But that's not all...

After Todd visited me, he also mastered a *second* technique - **Fractionation**. And he used *that* on Kate, too, as they started dating. And the results were phenomenal.

Last I heard from Todd, he told me that Kate is now totally different from her high school self. She’s a lot more respectful, supportive, and honest. And most importantly, she was madly in love with him.

Would you like the power to make *any woman* feel MADLY IN LOVE WITH YOU, too? **Then turn the page...**

# What Next?
