How To Stick In Her Mind: Using Mind Control

1. Women seem to behave unpredictably and irrationally sometimes, and this is caused by certain *vulnerabilities* which are hard-wired inside their minds.

2. By exploiting these psychological vulnerabilities, you'll be able to gain the upper hand and make any woman yield to your influence and control whenever you want.

3. **A woman's biggest psychological weakness is that she lets her emotions govern her actions.**

4. Once you have developed a superior understanding of how female psychology works, you'll be able to *"brute force"* a woman to develop feelings for you.

1. The best way to master the art of understanding (and exploiting!) a woman's psychological weakness is to use **Mind Control** techniques. For a **free** online Masterclass (conducted by Derek Rake, the founder of Shogun Method), click here.

Exploit Her Insecurity

- **Making her feel insecure (about herself and the relationship) will help you greatly. Do it!**

- Inciting mild jealousy in her will tilt the balance of power in the relationship to your favor.

- Imply to her that you're seeing other women. (Don't be outright - be coy.)

- **If you can keep her guessing if you're with another woman when you're not with her, then she'll be "forced" to think about you.**

Be Unpredictable

- **Being predictable is a sin. Predictability is an excitement killer!**

- Hide certain things about yourself and create an aura of mystery. This will keep her guessing when it comes to what kind of man you are.

- **Once in a while, flake on her. At the very last minute, text her: *"I can't make it. Something came up."* Cancel on her.**

- Be as vague as possible ("*Something came up*"). She will be pissed - that's understandable (if she's not, then start to worry.) Don't offer an explanation. Fuck with her mind!

- **Remember: who dares, wins!**

Untie Her Leash!

Familiarity breeds contempt - this is very true in love and relationships.

Every once in a while, give her the "space" to miss you.

Take time off and go elsewhere. Even better, tool up on your Shogun Method techniques so that when you're back, you'll have an arsenal of new Mind Control tools to work on her.

Go to Step 2...

Give Her A Hard Time

- **Once in a while, play belligerent and disagree with her on purpose - even though you may seem to be wrong or unreasonable.**

- Be in a position where she'll need YOUR approval.

- **Remember: being wrong is never an issue - she won't like you less because of that. However, if you're weak and indecisive, you can bet that her attraction to you will plummet soon enough.**

- Avoid kissing her ass and putting her on a pedestal. Be irrational or even downright hostile at times. Drama is good for a relationship from time to time!

Next...

Manipulate Her Emotions

- **Accept the fact that everyone's a manipulator.**

- You're "seducing" her and making her fall in love with you - which means that you're manipulating her emotions so that she develop affections for you, plain and simple.

- **If you're not manipulating her, then she's manipulating you. So, you might as well be the aggressor and reap all the benefits, yes?**

- Advanced Mind Manipulation - make her feel **uncomfortable** when you are **NOT** around. This can be done using the twin Mind Control techniques of Mirroring and Anchoring. If you have access to the Derek Rake Insider, click here for the Cheat Sheet.

Use Implanted Commands

An Implanted Command is a tool that will subconsciously implant desired thoughts inside a woman's mind. It is a phrase which forms the part of a sentence, which if spoken on its own, would be a direct command.

However, the phrases surrounding the command in the sentence will camouflage the Implanted Command so that it goes undetected by your target's conscious mind.

In Derek Rake's words: *"what a woman cannot detect, she cannot resist"*. Implanted Commands work perfectly because you are targeting her subconscious, therefore your attempts at seduction will be completely overt.

Let's look at some examples…

Bonus Examples (Not Found In The Guide)

There are 44 Implanted Command patterns inside the Shogun Method, but I'm going to share with you my personal favorites.

> ***"I won't tell you to fall in love with me right here, right now because I want it to come naturally to you."***

With this command, your target can't "disagree" with you because you won't tell her to do anything anyway. Additionally, the word "because" has the effect of imposed authority which strengthens the Implanted Command on a subconscious level.

> ***"Would you live your new, exciting life with me, or would you leave the boyfriend who is treating you so badly?"***

Notice here that both options are favorable to you. You're basically playing a game you couldn't lose!

> ***"You would let your eyes close, relax and release all your inhibitions, would you not?"***

"Would you not" is a particularly useful way to close an Implanted Command because it makes the Command transition into something which seems to be quite docile.

Additionally, it is designed to be confusing so that it completely stumps the conscious mind, there making the Command particularly difficult to block!

If you combine an Implanted Command with a covert Mind Control technique such as **Fractionation**, then you can expect some pretty explosive results.

Of course, if you have heard of **Fractionation** before, you'll know just how effective it is when it comes to making a woman fall in love with you quickly and easily.

Use Fractionation On Her

Fractionation, the grand-daddy of all Mind Control techniques, is famous for giving guys the "superpowers" to hack into women's minds and making them fall in love in minutes.

Go on and continue reading the next page where you'll find our recommended resource on how to use Fractionation to quickly seduce a woman and make her surrender to your dominance and authority in minutes…

What's Next...

The techniques I've shared with you are just the tip of the iceberg when it comes to Mind Control seduction.

This guide will get you off a flying start, but to do well, you'll need a full suite of Mind Control tactics in order to control and dominate a woman completely.

After all, you don't really want to "attract" or "seduce" her...

... instead, you'll want to enslave her emotionally to you since you want to keep her for as long as you want, minus the usual headaches and frustration.

And this is what a Mind Control system such as the Shogun Method can do for you.
