Role Reversal Strategies: Using Mind Control

1. Women seem to behave unpredictably and irrationally sometimes, and this is caused by certain *vulnerabilities* which are hard-wired inside their minds.

2. By exploiting these psychological vulnerabilities, you'll be able to gain the upper hand and make any woman yield to your influence and control whenever you want.

3. **A woman's biggest psychological weakness is that she lets her emotions govern her actions.**

4. Once you have developed a superior understanding of how female psychology works, you'll be able to *"brute force"* a woman to develop feelings for you.

1. The best way to master the art of understanding (and exploiting!) a woman's psychological weakness is to use **Mind Control** techniques. For a **free** online Masterclass (conducted by Derek Rake, the founder of Shogun Method), click here.

Six Role Reversal Tips You Must Know

Tip #1: Keep Her Hungry

1. This exploits the "Ziegarnik Effect" vulnerability inside a woman's mind
2. **Tell her that there are three things that you love about her.**
3. When she asks what those three things are, tell her what two of them are, but don't tell her about the last one.
4. Drop her some hints to keep her wanting more, but never actually reveal what that third thing is.

Extra credit: use the Rollercoastering technique inside Shogun Method to craft more "cliffhanger" stories to captivate a woman's attention.

Tip #2: Ignore Her Calls

1. Once in a while, ignore her calls. You can do this without pissing her off, and here's how…
    - When she calls, don't pick it up.
    - Text (not call) her in 30-45 minutes, asking "what's up". Be brief, and don't explain yourself.
2. Don't be afraid of "pushing it" sometimes. A little conflict and tension is good for any relationship!

Tip #3: Bust Her Chops

1. **Truth: the more you piss her off, the more she will chase you. That's how the female mind works.**
2. Create more questions than answers in her mind with the things you say.
3. For example, say she resembles so-and-so in a movie. Don't explain how.
4. Due to unresolved questions, she will feel uncomfortable until she gets the answers from you – forcing her to chase you.
5. This is what's called "Cognitive Dissonance", and is a deep flaw inside the female mind that you must exploit for your benefit!

Tip #4: Pull Back (Physically)

1. This can be pretty hard to pull off, but it works like gangbusters, trust me. ☺
2. When things get hot and heavy with her, pull back abruptly. Pause, and then say: "This is going too fast."
3. Don't explain why.
4. Even better: just stand up and leave. She will be completely confused, and her reptile brain will compel her to run after you.
5. At this point, she will be the aggressor – you can then sit back and let her come to you. Awesome, right?

Tip #5: "It's All Your Fault"

1. Watch this YouTube video here.
2. **Blame her for everything. Blame her for getting attracted to her. Blame her for the seductive moves that you make on her.**
3. (You're meant to say that half-seriously. So, do it with a slight grin.)
4. This is why "It's All Your Fault" works so well - *you're "turning the tables" on her and implying that SHE's the one who is putting in the effort to make you like her.*
5. Remember that if your frame is stronger than hers than she will be absorbed into YOUR frame and feel that she's the one who is working to EARN your affections.

Go On To The BONUS Tip…

BONUS TIP (not found in the article) - Implanted Commands

An Implanted Command is a tool that will subconsciously implant desired thoughts inside a woman's mind. It is a phrase which forms the part of a sentence, which if spoken on its own, would be a direct command.

However, the phrases surrounding the command in the sentence will camouflage the Implanted Command so that it goes undetected by your target's conscious mind.

In Derek Rake's words: *"what a woman cannot detect, she cannot resist"*. Implanted Commands work perfectly because you are targeting her subconscious, therefore your attempts at seduction will be completely overt.

Let's look at some examples…

Some Examples...

There are 44 Implanted Command patterns inside the Shogun Method, but I'm going to share with you my personal favorites.

> ***"I won't tell you to fall in love with me right here, right now because I want it to come naturally to you."***

With this command, your target can't "disagree" with you because you won't tell her to do anything anyway. Additionally, the word "because" has the effect of imposed authority which strengthens the Implanted Command on a subconscious level.

> ***"Would you live your new, exciting life with me, or would you leave the boyfriend who is treating you so badly?"***

Notice here that both options are favorable to you. You're basically playing a game you couldn't lose!

More examples next…

Some Examples... continued

> ***"You would let your eyes close, relax and release all your inhibitions, would you not?"***

"Would you not" is a particularly useful way to close an Implanted Command because it makes the Command transition into something which seems to be quite docile.

Additionally, it is designed to be confusing so that it completely stumps the conscious mind, there making the Command particularly difficult to block!

If you combine an Implanted Command with a covert Mind Control technique such as **Fractionation**, then you can expect some pretty explosive results.

Of course, if you have heard of **Fractionation** before, you'll know just how effective it is when it comes to making a woman fall in love with you quickly and easily.

Next: The Final Tip…

Tip #6: Control Her Mind (Use Fractionation On Her)

Fractionation, the grand-daddy of all Mind Control techniques, is famous for giving guys the "superpowers" to hack into women's minds and making them fall in love in minutes.

Go on and continue reading the next page where you'll find our recommended resource on how to use Fractionation to quickly seduce a woman and make her surrender to your dominance and authority in minutes…

What's Next...

The techniques I've shared with you are just the tip of the iceberg when it comes to Mind Control seduction.

This guide will get you off a flying start, but to do well, you'll need a full suite of Mind Control tactics in order to control and dominate a woman completely.

After all, you don't really want to "attract" or "seduce" her...

... instead, you'll want to enslave her emotionally to you since you want to keep her for as long as you want, minus the usual headaches and frustration.

And this is what a Mind Control system such as the Shogun Method can do for you.
